Subject: S. Weber Technical Assistance Grant RA Briefing

Hi Rick and Patrice,

I understand you were briefed earlier on the expiring S. Weber Coalition Technical Assistance Superfund grant. We were to brief Shaun this afternoon but it has been cancelled and will be rescheduled for later in July.

This is our first attempt at implementing criteria that we've developed to assess whether TAG's that have been awarded for more than 15 years are still serving the purpose of what the grant is meant to do which is to provide technical assistance to a community that has been impacted by hazardous contamination. The S. Weber Coalition TAG was the first to be selected for assessment because it was to expire in April however we granted a 90 day extension to assess whether the grants should be renewed, closed and announced again, or just closed. The grant expires on July 31.

We've already briefed Martin and Sandy and will now be briefing Shaun. Would either of you or both of you want to be included in this briefing? Also, if you have any thoughts based on your briefing today that you would like to share forward, that would be helpful to hear. If you have any questions, please give me call.

Thanks, Libby
